

A

- Alabama, proclaims January soybean month No. 5, p. 25; elects officers No. 5, p. 29
- American Soybean Assn., board opposes European subsidy on soybeans No. 3, p. 2b; 1974 convention registration No. 8, p. 3; Howard Grow retires No. 4, p. 24; supporting members No. 7, p. 26; Taiwan office receives award No. 8, p. 28; 54th convention in Houston No. 9, p. 14; Walker appointed to ASA board No. 10, p. 21; convention plans No. 10, p. 22; convention theme—progress for profits No. 11, p. 6; acreage survey on target No. 11, p. 9; convention highlights/speakers No. 12, p. 20; awards presentation No. 12, p. 24; boards have new officers No. 12, p. 27; convention contributors No. 12, p. 27; door prize contributors No. 12, p. 27; Michigan assn. affiliates with No. 12, p. 31; new national board members No. 12, p. 31; supporting members No. 12, p. 31; market development, FAS, research, public relations explanation No. 13, p. 11
- American Soybean Assn. Research Foundation, elects officers No. 3, p. 29; North Carolina, Minnesota support No. 4, p. 29
- American Soybean Institute, elects officers No. 8, p. 34
- Arkansas, soybean farmers tour Iowa No. 1, p. 34; irrigation pays Arkansas farmers No. 5, p. 22; awards to leaders No. 5, p. 26; contributes to research No. 9, p. 18; industry supports research No. 9, p. 18

B

- Brazil, Randell tours soybean crop No. 5, p. 33; suspends export licensing No. 11, p. 35

C

- Canada, growers hold soybeans No. 10, p. 29

D

- Disease, soybean problems and prospects No. 9, p. 6; Missouri combats charcoal rot No. 10, p. 23

E

- East Europe, Lepley new head No. 10, p. 23
- EEC, aims at common agricultural policy for soybeans No. 3, p. 23
- Exports, meal & oil: export outlook No. 8, p. 8; Italians export soybeans from U. S. ports No. 8, p. 14

G

- Georgia, soybeans reach major crop status No. 4, p. 20b; renews check-off No. 11, p. 31
- Germany, producers fed up with protein situation No. 1, p. 11

H

- Herbicides, new herbicides No. 5, p. 4; farmers rate No. 5, p. 6; producers suggest improvements No. 5, p. 8; may increase yields 10%–20% No. 5, p. 14; glyphosate application studied No. 5, p. 20; new chemical holds promise for johnsongrass control No. 7, p. 28; wet spring may boost postemergence practices No. 10, p. 17

I

- Illinois, Susan Pritchard new princess No. 7, p. 24; plans referendum No. 8, p. 33; date set for referendum No. 9, p. 19; program operating board elects officers No. 13, p. 24
- Indiana, elects princess, officers during farm science days No. 5, p. 27; Stewarts named master farmers No. 10, p. 23; Purdue honors Stewarts No. 11, p. 30; holds soybean field day No. 13, p. 25
- Iowa, receives highest state yield award No. 1, p. 32; Debbie Weuve new princess soya No. 4, p. 20; agriculture day No. 5, p. 20; farmer named master soybean grower No. 5, p. 28; Lundsgaard elected president of Farmers Grain Dealers Assn. No. 7, p. 26; opposes grain reserve No. 8, p. 35; Lundsgaard to Farm Credit Board No. 9, p. 19

J

- Japan, seek high rate-of-gain using soybean meal No. 1, p. 16; tofu team tours U. S. No. 1, p. 30; top-level teams tour U. S. No. 1, p. 30

K

- Kansas, annual meeting No. 4, p. 26; soybean farmers visit Brazil No. 5, p. 34; aids Puerto Rican research No. 13, p. 22
- Kentucky, ag tour views Esche farm operation No. 2, p. 18; holds annual meeting No. 5, p. 28
- Korea, expands soybean output No. 11, p. 35

L

- Louisiana, names princess soya No. 11, p. 31

M

- Machinery, new combines on the scene No. 10, p. 6; new equipment for 1974 No. 7, p. 4
- Market development, tofu team tours U. S. No. 1, p. 30; Lee joins staff as market analyst No. 1, p. 30; top-level Japanese teams tour No. 1, p. 30; Italian poultry produce better on soybean meal No. 3, p. 25; Czechoslovakia replaces fish meal with soybean meal No. 3, p. 25; Reid, Gerber join staff No. 3, p. 25; soy sauce & oil seminars held No. 5, p. 32; home economist joins staff No. 5, p. 34; Randell tours Brazilian soybean crop No. 5, p. 33; soy-enriched meat products in Mexico No. 5, p. 34; princess soya promoting soybeans in Far East No. 7, p. 29; processing plant in Australia No. 7, p. 34; the Far East No. 8, p. 10; Minnesota supports market development No. 8, p. 28; Balloun holds poultry seminar No. 8, p. 29; soy oil gains in Portugal No. 9, p. 16; Lepley new East European head No. 10, p. 23; ASA seeks equitable trade with Philippines No. 10, p. 29; opens up in Eastern Europe No. 11, p. 20; Central American team visits U. S. No. 11, p. 28; Butz visits Japanese cattle operation No. 11, p. 29; export incentive contract signed No. 12, p. 28; international outlook No. 13, p. 8
- Marketing, different techniques No. 1, p. 20; how currency changes boost prospects No. 1, p. 22; support price; \$2.25? \$3.00? what's best? No. 1, p. 28; multiple delivery points pro & con No. 4, p. 10; contract marketing No. 10, p. 8; obligations and opportunities for food industry No. 10, p. 28; grain and soybean movement: a changing scene No. 12, p. 8
- Mexico, tops predicted 1980 soybean consumption No. 4, p. 24; soy-enriched meat products No. 5, p. 34; promotes soy-fortified tortillas No. 9, p. 17
- Mid-Atlantic, Delmarva production practices that pay—annual meeting No. 5, p. 25
- Minnesota, selects new princess No. 7, p. 27; supports market development No. 8, p. 28; releases new varieties No. 10, p. 25
- Mississippi, holds soybean day No. 5, p. 30; hosts seed seminar No. 10, p. 25
- Missouri, soybeans on your table, No. 1, p. 32; annual meeting No. 5, p. 28; combats charcoal rot No. 10, p. 23; works on referendum No. 11, p. 30
- Michigan, affiliates with ASA No. 12, p. 31

N

- Nebraska, soybean production, breeding highlight meeting No. 7, p. 25; hosts research day No. 11, p. 30
- North Carolina, Judith Evans 1974 princess No. 5, p. 26; member wins trip to Italy No. 5, p. 30

O

- Ohio, plans farm focus-USA No. 8, p. 37; votes on 1/2¢ checkoff No. 3, p. 32
- Oilseeds, edible oils background No. 10, p. 11; looking ahead to 1974 No. 2, p. 6; 1974 soybean outlook—demand big question No. 3, p. 12; corn-soybean conference held No. 7, p. 34

P

- Pests, soybean problems and prospects No. 9, p. 6
- Princess Soya, visits White House No. 1, p. 22; Mississippi, Iowa, Texas plan princess contests No. 2, p. 20; new North Carolina princess No. 5, p. 26; new Indiana princess No. 5, p. 27; Susan Pritchard princess No. 7, p. 24; Texas names princess No. 7, p. 26; Minnesota selects princess No. 7, p. 27; Virginia selects princess No. 8, p. 35; 1974 princess convention candidates No. 10, p. 18; Debbie Weuve

1974 American Princess Soya No. 12, p. 26
Processors, soy food processing facilities expanded No. 4, p. 34
Production, Esche started small—farms 2,500 acres No. 1, p. 17; good management produces high yields No. 1, p. 18; old barn is soybean moneymaker No. 1, p. 29; midwest varieties in south—big boom or hazard No. 1, p. 24; increase yields with narrow row plantings No. 1, p. 34; inoculation—worth it or not No. 2, p. 10; number 1 management tool—records No. 2, p. 14; shortages No. 3, p. 8; inoculants help growers achieve top yields No. 3, p. 16; plantings intentions survey No. 3, p. 18; weed control, irrigation—keys to seed success No. 4, p. 12; Randells: veteran soybean people No. 5, p. 10; irrigation pays Arkansas farmers No. 5, p. 22; new equipment for 1974 No. 7, p. 4; machinery supply: little improvement in sight No. 7, p. 7; weed control, fertility, narrow rows—total package pays No. 7, p. 8; fertilizer—does it pay? No. 7, p. 22; agronomists discuss production practices No. 8, p. 18; fertilizer situation still multiple guess No. 8, p. 22; select varieties to fit management program No. 8, p. 25; are trace elements worth it? No. 9, p. 4; soybean problems and prospects No. 9, p. 6; nematode control vital No. 9, p. 11; soybeans surest profitmaker No. 10, p. 16; moisture stress critical in August No. 11, p. 16; Louisiana grower switches to narrow rows No. 11, p. 18; seep water cuts yields in half No. 11, p. 19; harvest kickoff No. 12, p. 7; frost: a threat to 1974 soybeans? No. 12, p. 15; yields bad but checkoff promising No. 12, p. 16; 1975 fertilizer outlook No. 13, p. 6; fertility and yields line up No. 13, p. 19; drilled soybeans doing well No. 13, p. 20
Protein, soy protein conference meets No. 1, p. 8; protein in prosperity No. 1, p. 10; German producers fed up with situation No. 1, p. 11; grabs world food spotlight No. 2, p. 8; fish meal declining as important source No. 8, p. 28; feed crisis over No. 8, p. 43

R

Research, soybean processors establish fund No. 1, p. 31; big gains by Indian children on soy food No. 1, p. 31; congress appropriates \$1 mil. No. 1, p. 31; priorities named No. 2, p. 16; new techniques combat flavor stability in soy oil No. 2, p. 16; new varieties resist phytophthora root rot No. 2, p. 16; growers can increase yields but research required No. 3, p. 27; higher soybean yields seen No. 3, p. 27; Illinois scientists to study crop rotation, weed control No. 3, p. 29; ASA initiates Chinese-U. S. soybean breeding studies No. 3, p. 29; \$12,000 grant to North Carolina No. 4, p. 29; \$15,000 grant to ISU No. 4, p. 29; soybean processors award grants No. 4, p. 28; herbicides can control volunteer corn in soybeans No. 4, p. 28; seed size may affect yields No. 5, p. 31; industry supports research No. 5, p. 31; \$10,000 grant to University of Missouri No. 5, p. 32; JOPA contributes \$4,000 to No. 8, p. 30; focuses on production No. 8, p. 30; Monsanto—\$10,000 to research No. 8, p. 30; NSPA passes research resolution No. 8, p. 31; grant to Purdue No. 8, p. 32; Elanco presents \$5,000 No. 8, p. 32; soybean dal developed for India No. 9, p. 18; investigate improved harvester No. 11, p. 10;

face unique yield barriers No. 11, p. 12; USDA awards research grants No. 11, p. 24; Purdue studies soybean insects No. 11, p. 24; Shore variety resistant to bean beetle No. 11, p. 26; sicklepod weed invades Arkansas No. 11, p. 27; Iowa studies insecticide use No. 11, p. 27; trip to China discussed No. 11, p. 35; meat competes with TSP substitutes No. 12, p. 30; Kansas supports No. 12, p. 30; Kansas aids Puerto Rican research No. 13, p. 22; scientists study cyst nematode No. 13, p. 23

S

South Carolina, Garrison soybean man of the year No. 5, p. 29; hails soybeans number 1 cash crop No. 9, p. 19
Soy flour, in food for peace bread No. 1, p. 12
Soy foods, bread: now a better food No. 1, p. 12; big gains by Indian children No. 1, p. 31; soybeans on your table No. 1, p. 32; milk without the cost of the cow No. 1, p. 36; soy-enriched meat products in Mexico No. 5, p. 34; blending animal and vegetable proteins No. 4, p. 16; beans . . . beans . . . beans No. 9, p. 12; Mexico promotes soy-fortified tortillas No. 9, p. 17; soybean dal developed for India No. 9, p. 18
Soybean Digest, reaches all 50 states No. 2, p. 20
Soybeans, midwest soybeans in the south—big boom or a hazard No. 1, p. 24; supply update No. 5, p. 12; Spanish import levy lifted No. 7, p. 27; history—a call for help No. 8, p. 36
Soybean seed, varieties available in 1974 No. 4, p. 6; seed situation reverse of a year ago No. 4, p. 9; directory No. 4, p. 20; Coker 338 not phytophthora resistant No. 7, p. 34
Storage, supplies still short No. 10, p. 7

T

Texas, sponsors soy foods booth No. 2, p. 19; names princess No. 7, p. 26

V

Varieties, cobb variety released No. 8, p. 44; Minnesota releases new varieties No. 10, p. 25; Mississippi hosts seed seminar No. 10, p. 25; Shore, resistant to Mexican bean beetle No. 11, p. 26
Virginia, selects princess No. 8, p. 35

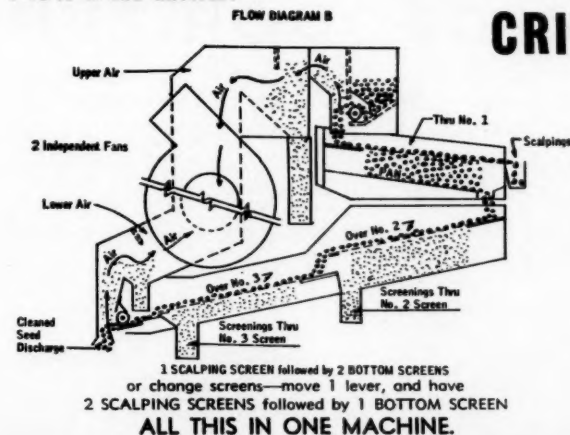

W

Weeds, johnsongrass control pays No. 4, p. 28; velvetleaf elected worst weed by midwest growers No. 5, p. 16
Wisconsin, 300 attend meeting No. 5, p. 30

Y

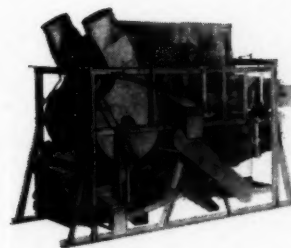

Yield contests, what makes a yield champion No. 7, p. 16
Yields, 1974 yield wrapup: down in midwest, up in south No. 4, p. 18; seaweed for higher yields No. 5, p. 14; herbicides may increase yields 10%–20% No. 5, p. 14; where to go from here No. 7, p. 10; solid seeding to maximize yields No. 7, p. 12; lime soybeans for higher profits No. 7, p. 28

WHAT'S SO DIFFERENT ABOUT THIS 3 SCREEN CLEANER? Mainly being able to use the 2nd screen (as shown) for "bottom" work, which is certainly different from the usual 3 screen setup. TANDEM FLOW is the answer.

CRIPPEN SEED CLEANERS
